PROFESSIONAL SUMMARY

Business Analytics graduate (available Nov 2026) with two B2B outbound sales roles behind me. Built Codrops' sponsorship pipeline from zero, qualifying and converting tech sponsors, and now generating B2B pipeline for an AI agent start-up (Sidekick, YC S26). Comfortable selling on value and ROI, resilient in high-volume and rejection-heavy work, and hands-on with AI agents through three 2026 hackathons so comfortable talking product with technical buyers.
